COMPLETE CONCRETE WORK ADDED TO WORLD CLASS BUILDING
COMPANY OFFERING
Peculiar MO—8/26/08

Heartland Companies is excited to announce two new acquisitions to expand offering in Cass County. Complete concrete services ranging from foundations, waterproofing, flat work, and decorative concrete. Both new companies, Michael's Basement and GMP Flatwork are located in Pleasant Hill, MO. Larry Shipp President of Heartland Companies states "by acquiring these two companies along with Worldwide Steel Buildings and U S Steel Truss we are able to offer our customers a complete package for their steel building requirements and all related projects like driveways, patios, retaining walls, and foundations."

Michael's Basement Co founded in 1969 and located on 7HWY in Pleasant Hill MO has a long standing reputation for doing quality work at a fair price. Michael's general manager is Rusty Lee who brings 25+ years experience in concrete wall construction. Along with foundations and waterproofing Michael's has expanded into doing stem walls and retaining walls working hand in hand with their sister company Worldwide Steel Buildings.

GMP Flatwork founded in 1992 and previously located in Archie, MO rounds out the requirements for concrete. Mike Price runs the flat work division and brings 30+ years Experience. GMP offers patios, driveways, sidewalks, and any other type of decorative concrete required. By offering all types of concrete work Worldwide Steel Buildings is able to offer a complete building package to their customers who are interested in erecting a building themselves or using a local contractor. "Offering the highest quality product with a service oriented staff sets us apart from our competition, we have a clear understanding of what our customers should expect and we will go out of our way to satisfy them." Warren Bott, National Sales & Marketing Manager.
